

JAVID KHAN

Faculty / Lecturer – Computer Science & Engineering (Industry Practice)

+916364660545 | SIRSI, KARNATAKA | DXBJAVID@GMAIL.COM |

Objective

Computer Science educator and industry professional with 8+ years of experience in full-stack software development and technical training. Passionate about teaching core CSE subjects, mentoring students, and integrating industry practices into academic learning. Focused on outcome-based education, practical skill development, and improving student employability.

Skills & abilities

- Programming languages: Python, PHP, Java
- Smart contract development: Solidity
- Web Frameworks: Django
- Frontend Framework: Ionic
- Blockchain platforms: Ethereum
- Database management: MySQL, SQLite, PostgreSQL
- API Testing
- IDE: Visual Studio Code, Android Studio
- RESTful APIs Development
- Version control: Git, Gitlab
- Frontend technologies: HTML, CSS, Javascript, Angular

Subjects Handling

- Programming in python
 - Object Oriented Programming
 - Data Structures and Algorithms
 - Database Management Systems (DBMS)
 - Web Technologies
 - Software Engineering
 - Cloud Computing Fundamentals
 - Blockchain Technology
 - Mobile Application Development
 - Full Stack Development (Django and Angular)
-

Experience

ETHNOTECH ACADEMY

Senior IT Specialist | January 2026- Present

ROLES & RESPONSIBILITIES

- Delivered structured classroom and practical sessions on Python Full Stack Development.
- Delivered comprehensive instruction in core programming and full stack development, covering Python Programming, fundamental programming concepts (OOP, Data Structures, Algorithms, Problem Solving), Django Framework, Django REST Framework (DRF), Database Management Systems (MySQL & MongoDB), and frontend technologies including Angular, Ionic, and TypeScript, integrating theoretical foundations with hands-on practical implementation.
- Conducted internal assessments, viva voce, and project evaluations.
- Prepared lecture notes, lab manuals, assignments, and evaluation materials.
- Guided students in developing real-time web-based applications.
- Mentored students in software engineering principles and best coding practices.

TRAINING & MENTORSHIP

- Conducting Full Stack Development (Django & Angular) training programs for engineering and BCA/MCA students.
- Providing hands-on internships focused on real-world Full Stack Development projects.
- Guiding and mentoring university students from Bahrain on their academic and industry projects.
- Delivering technical sessions on Computer Science and Engineering (CSE) at local colleges.

ITECZ AUSTRALIA - [HTTPS://ITECZ.COM.AU/](https://itecz.com.au/)

Full Stack Developer | Technical Trainer | January 2023- January 2026

ROLES & RESPONSIBILITIES

- Developed and maintained backend services using Django, Python.
 - Optimized MySQL & PostgreSQL database queries to improve performance.
 - Ensured backend scalability, security, and efficiency through best practices.
 - Designed and developed responsive and interactive web and mobile applications using AngularJS, Ionic, HTML, CSS, and JavaScript.
 - Ensured cross-platform compatibility and seamless user experiences.
 - Developed RESTful APIs to enable efficient communication between frontend and backend.
 - Integrated third-party APIs and optimized API performance.
 - Conducted API testing using Postman for validation and security.
 - Created detailed API documentation for improved maintainability.
 - Wrote and optimized clean, efficient, and scalable code.
 - Used Visual Studio Code (VS Code) for coding, debugging, and version control.
-

-
- Managed repositories using Git, ensuring smooth collaboration.
 - Deployed and maintained applications on AWS (EC2, S3, RDS) for scalability.
 - Managed website deployment on Hostinger, handling DNS, SSL, and server configurations.
 - Integrated AngularJS/Ionic frontend with Django/Python backend.

BLOCKSCRIPT REVENUE

Full Stack Developer | December 2020- December 2022

ROLES & RESPONSIBILITIES

- Developed scalable backend solutions using Django, Python, and PHP.
- Ensured database efficiency and optimization with MySQL & PostgreSQL.
- Implemented security best practices for data integrity and performance.
- Built high-performance and responsive interfaces using AngularJS, Ionic, HTML, CSS, and JavaScript.
- Ensured smooth cross-device user experiences with mobile-first designs.
- Designed and implemented RESTful APIs to facilitate communication between frontend and backend.
- Integrated third-party services to enhance app functionality.
- Performed comprehensive API testing using Postman.
- Created automated test cases and technical documentation for APIs.
- Developed maintainable and scalable code following industry standards.
- Debugged applications using VS Code and managed version control with Git.
- Deployed applications on AWS using EC2, S3, RDS for reliability and scalability.
- Handled website hosting and server management on Hostinger.
- Ensured seamless integration between AngularJS/Ionic frontend and Django/python backend.
- Debugged and optimized API calls to enhance performance.

BLOCKLABS DUBAI

Blockchain Engineer | February 2018- November 2020

ROLES & RESPONSIBILITIES

- Developed and deployed smart contracts on the Ethereum blockchain using Solidity, ensuring secure and transparent execution of business logic.
 - Created robust monitoring software to manage and monitor the data center's operations, providing real-time analytics, system alerts, and performance metrics to ensure efficient mining operations and quick resolution of issues.
 - Designed, developed, and configured a high-scale data center specifically for Bitcoin mining, utilizing ASIC (Application-Specific Integrated Circuit) hardware to achieve optimal mining efficiency and performance.
-

MEDIA TREND IT - BANGALORE

Android Developer | August 2016- January 2018

ROLES & RESPONSIBILITIES

- Develop and maintain Android applications using Java and Android Studio.
- Ensure the best possible performance, quality, and responsiveness of the application.
- Work closely with product management, design, and backend teams to define, design, and ship new features.
- Handle data storage and retrieval using SQLite or other local databases.

Education

VTU UNIVERSITY

BIT, MANGALURU | M.TECH in Computer Science Engineering –Pursuing

**AITM, UTTAR KANNADA | B.E in Computer Science Engineering -2016
passout**

Communication

Excellent communication skills enable me to collaborate with clients, stakeholders, and cross-functional teams to deliver high-quality results.

Leadership

Mentor junior developers, students, coordinate project tasks, and implement best practices to ensure timely delivery of high-quality web applications.
